COMMUNITY HEALTH

Technology. Closer to your community.

Welcoming spaces for body awareness, BP education and connection to care.

Illustrative setting concept. Equipment and program scope vary.

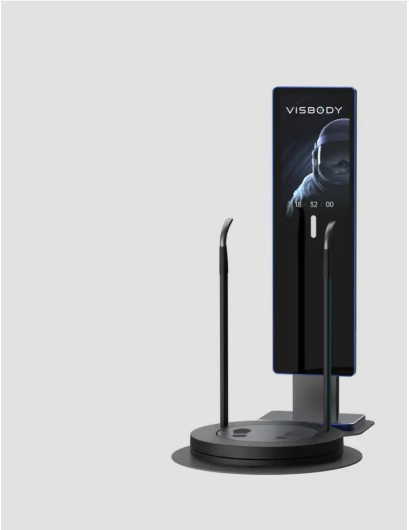

Local access

Personal insight

Care connections

BUILD YOUR FIRST SETUP

Start with people. Build around their needs.

GUIDED BODY ASSESSMENT

Make insights visible.

Explore body and posture reports within an organized wellness program.

CLINICAL BP EQUIPMENT

Build awareness.

Match the model, location and clinical support to the intended use.

A SEPARATE CLINICAL PATHWAY

Where appropriate, a healthcare professional can prescribe 24-hour ambulatory BP monitoring and interpret the results.

Community deployment requires a suitable model and operating setting. WBP-02A is prescription-only; not intended for people with diabetes, pregnancy or arrhythmia. An awareness station is not an emergency evaluation service.

THE HUMAN EXPERIENCE

A more personal public-service experience.

Proposed setting concept - not a documented customer installation.

01

Invite

Choose a welcoming, accessible location.

02

Guide

Provide orientation and understandable education.

03

Refer

Connect participants with qualified care when needed.

LET’S MAKE IT CONCRETE

One site. A clear starting point.

Identify one community program.

Define the host, clinical partner, equipment need and funding route.

WHO	WHERE	WHEN
Audience + program owner	Site + space + staffing	Quantity + purchase timing

COMMUNITY SERVICES + CLINICAL PARTNER + PROCUREMENT

REQUEST A SITE PROPOSAL

Sales@MBMedTechUSA.com

(305) 677-3455

MBMedTechUSA.com/retail-redefined

Ask for equipment, configuration, training, service, lead-time and commercial terms in one written proposal.
