MEDTECH USA & ORTHOTICS

Human care. Dignity. Beyond digital.

MOBILITY & HUMAN CARE

Dignity. Beyond digital.

Explore physical technology for assisted movement, positioning and everyday care.

Illustrative setting concept. Equipment and program scope vary.

Human needs

Assisted movement

Care planning

BUILD YOUR FIRST SETUP

Technology with a human purpose.

MOBILITY EQUIPMENT

Explore assisted movement.

Discuss the user, environment and model-specific support requirements.

SMART CARE EQUIPMENT

Plan around daily care.

Explore positioning and care configurations with responsible professionals.

ASSESSMENT & CONVERSATION

Connect model-specific body and movement insights with a professionally guided care discussion.

Equipment selection, patient suitability, operating requirements and U.S. supply status require model-specific review. Illustrated settings are concepts; features shown across the portfolio are not available on every product.

THE HUMAN EXPERIENCE

Begin with a need. Shape the right solution.

Proposed setting concept - not a documented customer installation.

01

Define

Document the task and intended user.

02

Configure

Review space, controls, support and care workflow.

03

Evaluate

Set demonstration and acceptance criteria.

LET’S MAKE IT CONCRETE

One site. A clear starting point.

Bring us a specific care requirement.

A defined need can become a configuration review and purchasing proposal.

WHO	WHERE	WHEN
Audience + program owner	Site + space + staffing	Quantity + purchase timing

CARE OPERATIONS + QUALIFIED CLINICAL TEAM + PROCUREMENT

REQUEST A SITE PROPOSAL
